PROFESSIONAL SUMMARY

Experienced Full-Stack Software Engineer with 7+ years developing scalable web applications and leading cross-functional teams. Proven track record of delivering high-quality solutions using modern technologies including React, Node.js, and cloud platforms. Strong advocate for clean code, test-driven development, and agile methodologies.

PROFESSIONAL EXPERIENCE

Senior Software Engineer - TechCorp Solutions

2021 - Present

San Francisco, CA

- Led development of microservices architecture serving 2M+ daily active users, improving system reliability by 40%
- Architected and implemented real-time collaboration features using WebSocket and Redis, increasing user engagement by 35%
- Mentored team of 4 junior developers, conducting code reviews and establishing best practices
- Optimized database queries and implemented caching strategies, reducing API response times by 60%
- Collaborated with product managers and designers to deliver 15+ major features on schedule

Software Engineer - InnovateLabs

2019 - 2021

Austin, TX

- Developed and maintained React-based dashboard application with 50+ interactive components
- Built RESTful APIs using Node.js and Express, integrating with PostgreSQL and MongoDB databases
- Implemented automated testing suite with Jest and Cypress, achieving 85% code coverage
- Participated in agile development process, contributing to sprint planning and retrospectives
- Reduced application bundle size by 30% through code splitting and lazy loading optimization

Junior Software Developer - StartupVenture

2017 - 2019

Remote

- Contributed to full-stack development of e-commerce platform using React and Django
- Implemented responsive UI components and mobile-first design principles
- Integrated third-party payment systems including Stripe and PayPal APIs

- Participated in daily standups and code review processes

EDUCATION

Bachelor of Science in Computer Science

2013 - 2017

University of California, Berkeley

Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering, Web Development

TECHNICAL SKILLS

Programming Languages

JavaScript, TypeScript, Python, Java, HTML5, CSS3, SQL

Frontend Technologies

React, Vue.js, Next.js, Nuxt.js, Redux, Tailwind CSS, Material-UI

Backend Technologies

Node.js, Express.js, Django, FastAPI, GraphQL, REST APIs

Databases

PostgreSQL, MongoDB, Redis, MySQL, Firebase

DevOps & Tools

Docker, AWS, Git, Jenkins, GitHub Actions, Webpack, Vite

Testing & Quality

Jest, Cypress, Playwright, ESLint, Prettier, SonarQube

KEY PROJECTS

E-Commerce Analytics Dashboard

React, D3.js, Node.js, PostgreSQL, AWS

- Built comprehensive analytics dashboard processing 1M+ daily transactions
- Implemented real-time data visualization with interactive charts and filters
- Achieved 99.9% uptime through robust error handling and monitoring

Real-Time Collaboration Platform

Vue.js, Socket.IO, Redis, MongoDB, Docker

- Developed collaborative document editing platform supporting 100+ concurrent users
- Implemented operational transformation for conflict-free collaborative editing
- Deployed using Docker containers with auto-scaling capabilities

Mobile-First Progressive Web App

Next.js, Service Workers, IndexedDB, Tailwind CSS

- Created offline-capable PWA with 95+ Lighthouse performance score
- Implemented push notifications and background sync functionality
- Achieved 50% increase in mobile user engagement

CERTIFICATIONS & ACHIEVEMENTS

- AWS Certified Solutions Architect - Associate (2022)
- Google Cloud Professional Cloud Architect (2021)
- Scrum Master Certification (2020)
- Speaker at TechConf 2022: "Building Scalable React Applications"
- Open source contributor with 500+ GitHub stars across projects
